

Parent Voice – notes from session 1/5/25

Focus: Communication

Current forms of communication

- There have been some communications that have gone to recipients who don't need to receive them – school to pass on to office to check who is receiving
- Feedback positive around booking systems introduced
- View to try and push the current APP system for Parent Gateway more through use of QR codes etc.

Social Media

- Positive discussion around the use of social media
- Gives a window into the school but in the current world recognition that it can be a difficult thing to manage
- Next meeting to continue discussion and possible look at or hear about other forms of showcasing school electronically that are more locked down

Initial feelings on wraparound provision

- Although those present had no direct experience of the newly created provision, felt that there had been positive comments made by others

Suggestions for future meetings

- Highlighted the desire to alternate the times of the meetings to make sure a broad spectrum of parents/carers can attend where possible
- School dinners
- Showcase events
