

Year Group: 3

Term: Summer 1

Teachers: Miss Hedley and Miss Jack

### Literacy

**Fiction:** We will explore the story - 'The Twits' - by Roald Dahl. The children will complete a range of reading, drama and writing activities linked to the story. They will also write their own five part story based on our class text.

**Homework:** Remember to complete your weekly reading homework as well as practising the spellings in the back of your homework book.

Thank you!

### History: Spring Gardens is turning 100!!

This unit is all about Spring Gardens Primary School! We will explore the history of our school and gain experience of what it was like to be a pupil when the school first opened!

### Music

We will continue learning notes B, A and G on the recorder. We will also sing and explore a song called 'Bringing Us Together'.

### Art: Telling Stories Through Drawing and Making

We will explore characters from film and literature, particularly looking at the work of Roald Dahl and Quentin Blake. We will use our sketchbooks to respond to word / film and then make a sculptural character.

### PSHE: Money Matters

This unit aims to encourage children to think about where money comes from and how it can be used.

### Computing: Digital Imagery - Patterns in Nature

We will look at the beauty of repeating patterns in nature and different methods of recreating these with digital art tools and photo editing.

### Maths

We will begin our work on unit fractions. Children will compare and order fractions and understand the part whole relationship.

### Times tables:

We will be recapping all of the times tables learnt so far as well as introducing the 6s!

### French

We will be learning about animals in French this half term. We will be able to name different animals and describe them.

### PE: Athletics and Tennis

In PE, we will be developing our agility skills for athletics and learning how to play tennis!

### Science: Plants

This half term our science topic is all about plants. We will learn about the different parts of a plant and their functions. We will also learn about what plants need to survive. We will conduct investigations to explore water transportation in plants and also discover what pollination is. Finally, we will learn the importance of seed dispersal.

### Key Vocabulary

root   stem   leaves   flower   seed   plant   pollen   water   dispersal   transportation   pollination
